A better quality of life for everyone! SPÜLBOY® excites people all around the world with hygienically clean glasses, accommodating pure satisfaction. Our legendary glass washing machines of the CLASSIC LINE offer solutions for any demand.

Just like with any of our original SPÜLBOY® models, these do not require any electricity along with a surprisingly small amount of water. Moreover, they offer complete mobility and are easily handled – according to 1000 reviews.

# The Legend!

## NEPTUN T2000 WITH TELESCOPE RINSING

### THE 1-CANISTER SYSTEM WITH AN OPEN RINSE

Simply to use, space saving and very easy to clean.  
Art. No. 1670

#### Hygienic Design

Patented, sealed construction with no corners and edges.

#### Two step head valve

For perfect cleansing and cooling of glasses.

#### Soft pads

Efficient glass protection from shock or breakage.

#### easy clix®

KTW tested hose with quick coupling and 3/8" thread.

### The Neptun T Principle

Legendary! The SPÜLBOY® Neptun T2000 with its open rinsing system proves to be a great machine. It cleans glasses of varying sizes – from shot glasses to beer glasses including handles and stems with a maximum depth of 24cm. Ideal for anyone who likes to clean hygienically, efficiently and with limited resources in mind.

### GUARANTEED HYGIENIC RINSING

100% hygiene

100% original

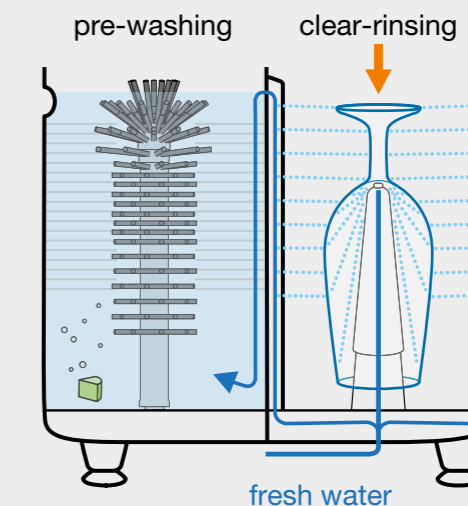

100% certification

#### Always use the original!

Clear facts. Our original SPÜLBOY® glass washing tablets and brush cleaners ensures – provided correct and regular use – 100% cleanliness and safety with each wash cycle.

✓ tested by independent institutes

✓ legally & officially impeccable

# Think twice!

## TWIN-GO T & TWIN-GO T PORTABLE

### + THE 2-CANISTER SYSTEM WITH A DOUBLE RINSE SHOWER

Cleaning glasses with or without a sink.  
Art. No. 1550

#### Hygienic Design

Patented, sealed construction with no corners and edges.

#### Double ring shower

Powerful – guaranteed double fresh water rinse.

#### easy cliX®

KTW tested hose with quick coupling and 3/8" thread.

#### Two step head valve

For perfect cleansing and cooling of glasses.

### Das Prinzip Twin-Go T

Our SPÜLBOY® Twin Go T doesn't just rinse your glasses once but twice with its double ring shower! This is a powerful and robust machine equipped with two equal cylinders which, additionally, makes sure to keep up constant freshwater circulation. The telescopic post rinsing mechanism accommodates glasses whose bases range up to 24cm.

### + SPÜLBOY® CAN DO MORE

100% purity

100% efficiency

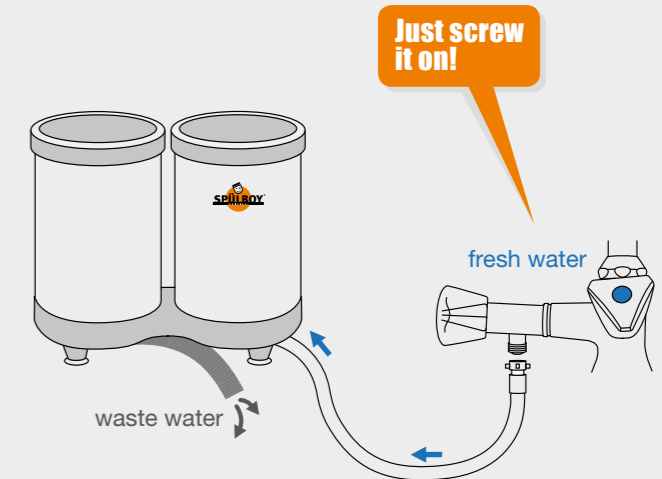

100% flexibility

#### Quick & easy!

With the SPÜLBOY® dual canister system offers completely mobile and hygienic glass cleaning. The ingenious waste water system allows you to wash glasses quickly and economically anywhere, even without the use of a sink.

- ✓ clean resource-saving without electricity
- ✓ uncompromising hygiene with low operating costs

Just screw it on!

Portable with drain hose!

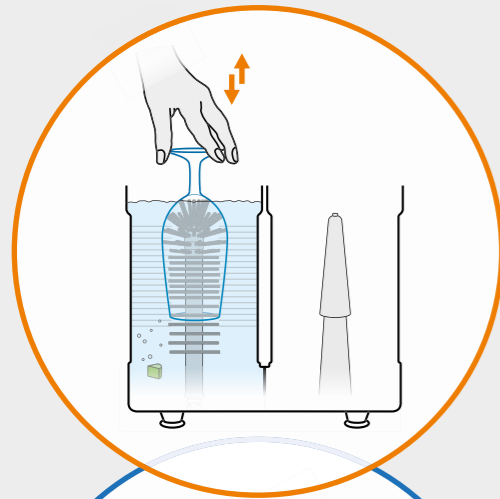

# Best engineering

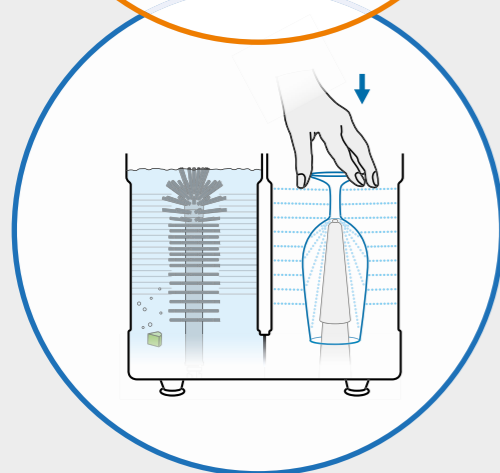

## 100% HYGIENICALLY CLEANING

### PRE-WASHING

- 1 Use original SPÜLBOY® glass washing tablets in the brush pot.
- 2 Move the glass completely over the brush at least 3-5 times with rapid up and down movements. Don't turn!

### CLEAR-RINSING

- 3 Allow draining over the pre-wash pot before rinsing thoroughly from the in- and outside for 2-3 seconds.
- 4 Daily cleanse of the brushes as well as the device itself guarantees hygienic cleaning of your glasses.

### Double rinsing power

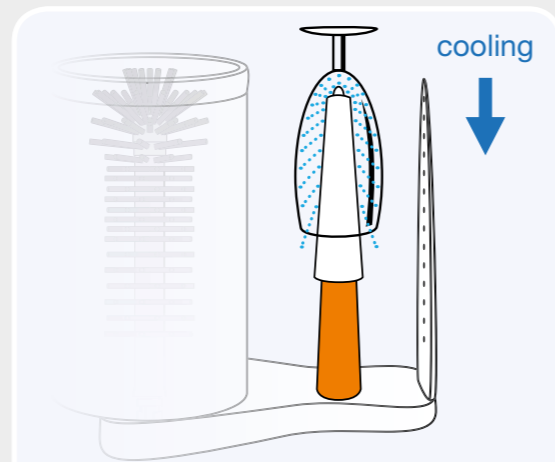

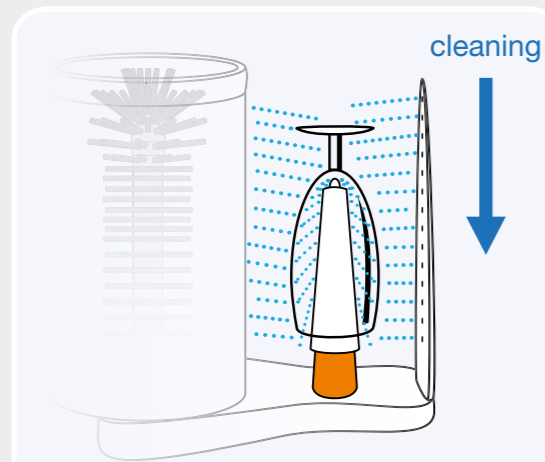

Our rinsing mechanism, including both the double ring shower as well as the spray arm, allows an all-around hygiene for your glasses.

The flexible telescope rinsing accommodates an easy and elegant way of cleaning of glasses, including the stem and base.

### Cleaning and cooling

Our head valve guarantees perfect freshwater circulation through the inside of the glass.

Along with the fact that the glass is still wet after cleaning, the head valve also allows the glasses to cool down before being held under the next tap.

GUARANTEED,  
PATENTED,  
CERTIFIED!

# Our claim

## 100% PIONEERING SUSTAINABILITY

### Safe cleaning.

- manual rinsing of all types of glasses with cold water
- fast and highly efficient brush cleaning
- 100% proven to deliver hygienic cleaning results

### Clean & simple.

- short distances due to direct availability at any location
- transportable and space-saving
- easy commissioning and performance

### Save the planet.

- environmentally and resource-friendly cleaning without electricity
- 100% cleanliness with minimum use of fresh water
- highly effective and biodegradable tablets

### Save smart.

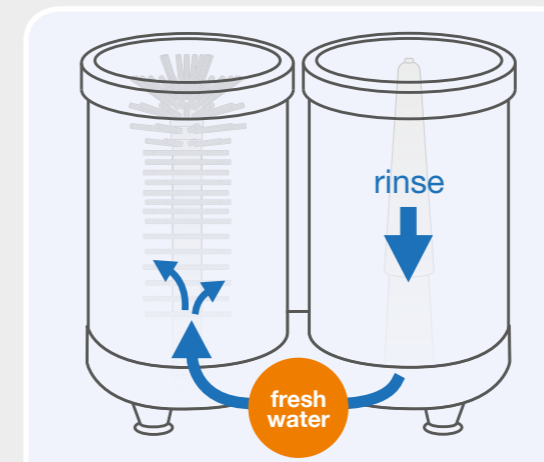

- up to 80% cost savings compared to glasswashers
- gentle on glasses and decor
- low detergent consumption

No1 of manual glasswashers!

### Unique

With every application of the rinsing mechanism, an automatic refill of freshwater is set into motion in the pre-rinse pot, guaranteeing a constant freshwater circulation.

**PROFESSIONAL ACCESSORIES FOR GASTRONOMY**

Easy connection thanks to easy clix® quick coupling

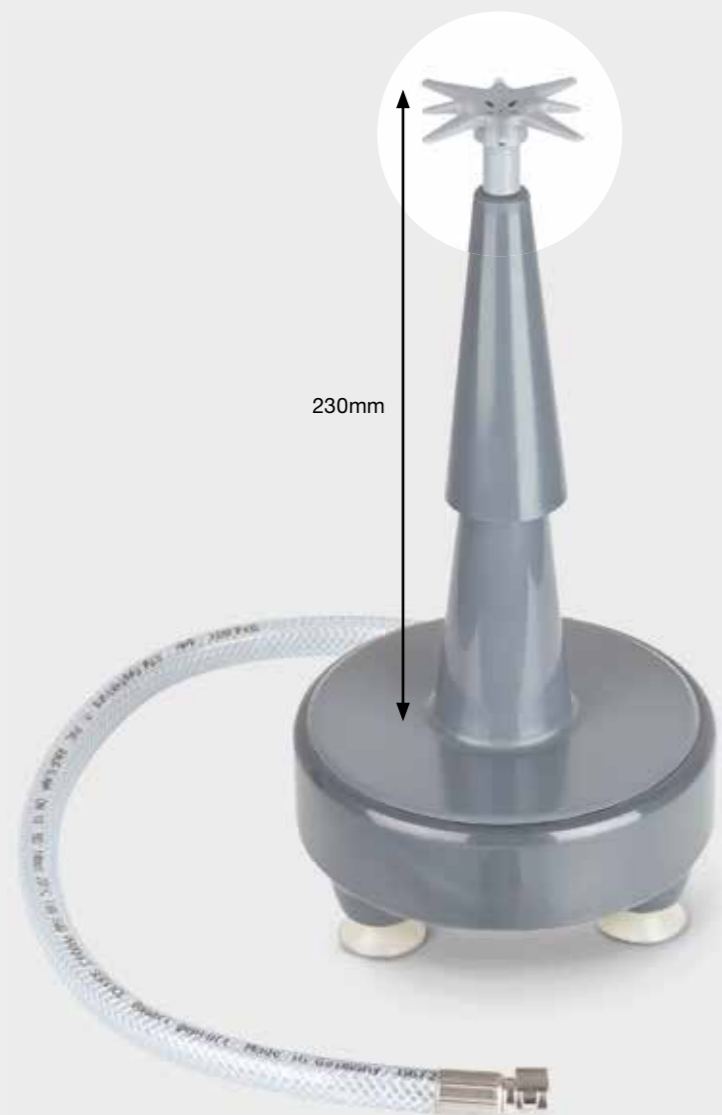

Strong freshwater rinse

Sturdy and extremely space saving construction
