

SPÜLBOY® CAN DO MORE.

We make sure that the glasses are 100% clean.

- perfect complete solution for cleaning glasses
- modern and sustainable dishwashing technology for over 40 years
- developed and manufactured in Germany

Your guests stay healthy.

- Cleanliness and hygiene are the most important!
- highly effective biodegradable tabs remove up to 99.9% of E. coli and Pseudomonas bacteria and Herpes HSV type 1 viruses
- tested and confirmed by independent institutes and authorities

You can be sure.

- separate pre-rinsing and rinsing with the patented 2-stage system
- automatic fresh water circulation during the rinse cycle
- certified as the only manual rinsing system according to DIN 6653-3

You can save costs.

- work without electricity, thus up to 80% cost saving compared to glass washing machines
- cold rinsing, glasses are ready for use immediately
- gentle on glasses and their decor
- low detergent consumption

Our masterpiece: NU® water+

- easy rinsing of all types of glasses, even tall and bellied glasses
- simplified operation and cleaning
- refill fresh water quickly and easily at the touch of a button at any time

Pure freedom: NU® ON TOUR

- flushing mobile for use at all kinds of events
- chic, durable and technically sophisticated
- the right connection for every event location – via fresh water on site or mobile equipment
- maximum independence thanks to intelligent solutions for fresh water supply and the necessary water pressure
- rent or buy – so you are always economically on the move

**FEEL FREE – the
clever counter for
being on tour**

**IT'S YOUR CHOICE –
model diversity
that convinces ...**
