APRIL 2015

SPÜLBOY® NU Portable

Spring has arrived and gastro start moving the main business outdoors. CLEAN GREEN UNDER OPEN SKY!? Here is the smartest solution for a successful outdoor business: Spülboy NU® portable version. Easy & quick, no need for sink and only one water supply!

Due to our biodegradable cleaning tabs dirty water can be drained thoughtless even in the given terrain. Please contact us for customized lengths of water hose and drainage hose.

Easiest Handling! Purest Results! Cleanest Green!

Spülboy® International – Spülboy® goes Vietnam.

We warmly welcome Vietnam as one of our newest export markets.

During our last Asian tour we visited new importers, breweries and lots of bars and restaurants in this region and we got the feeling for the huge potential in this market field.

Our local distribution partners posed an inspiring and professional representation of the brand Spülboy® and our glass washing systems at the 25th Vietnam Expo occurred from the 15th to the 18th of April in Hanoi.

We like to thank everybody most cordially, express our gratitude for the kind hospitality and looking forward to continue our fruitful business relationship in order to build up a successful market penetration!
