is becoming more and more a reality.

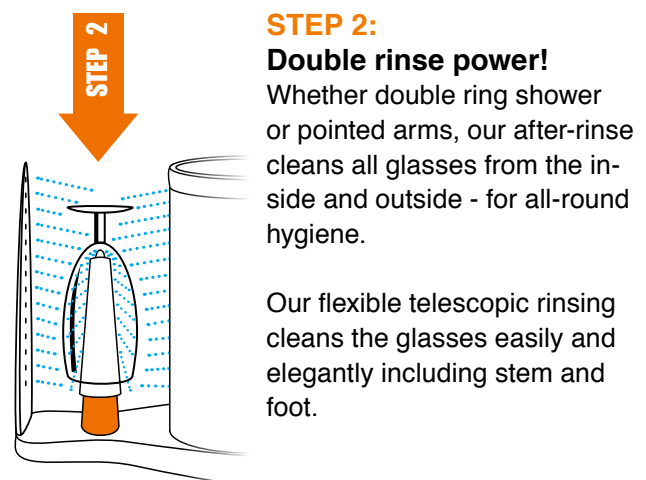

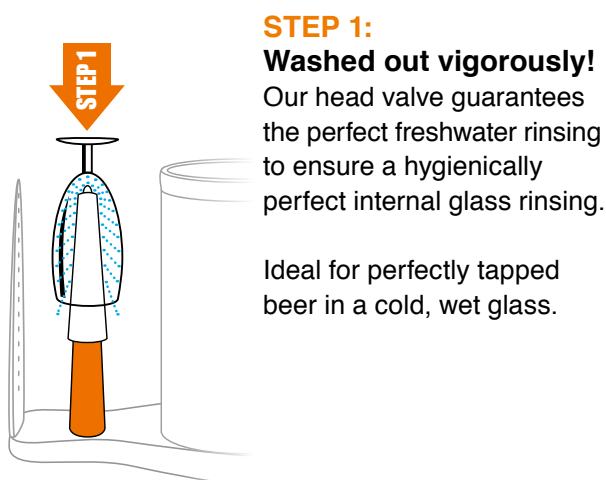

SPÜLBOY® MAKES THE DIFFERENCE! VOL. 2

PATENTED 2-STAGE VALVE

We are cleaner!

Our patented 2-stage valve cleans glass separately from the inside or from the inside and outside at the same time.

100% purity! Due to our non-return valves, we guarantee no dirty water can reach the final rinse area.

Look forward to the next editions of Spülboy newsletter, in which we explain the technical progress and uniqueness of our Spülboy products.
