

## SPÜLBOY® ALL IN ONE!

**THIS IS OUR BRAND QUALITY MADE IN GERMANY!**

If experience meets innovation, groundbreaking developments emerge. We constantly develop and optimize ourselves, and of course our products as well. In order to be able to interact even more flexible, we start producing our glass-cleaning brushes in our house. Therefore we rely on a new powerful and computerized bristle machine. Even to stay true to our motto „Made in Germany“, we purchased our bristle machine from a German manufacturer.

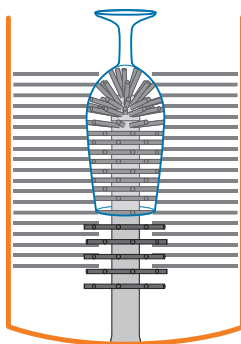

**Expertise Made in Germany!**

## SPÜLBOY® MAKES THE DIFFERENCE! VOL.3

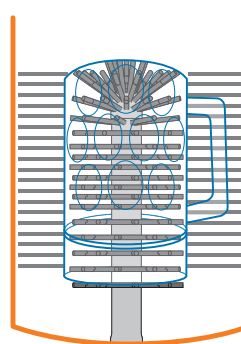

**FOR EVERY GLASS THE RIGHT BRUSHES**

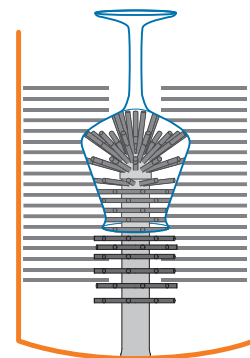

### 1. Standard brush set

Our basic brush set includes a brush strip (3890-Classic/1700350-NU) and a bayonet center brush with head (3751-Classic/1700360-NU). The combination is most suitable for common glass forms, e.g. beer, water and soft drink glasses.

### 2. NU brush set XL

The bristles of this brush strip have been shortened to match to the longer bristles of the „middle brush XL“. The middle brush XL rinses large glasses and jugs in the best way with an inner diameter of about 8 cm. The brush set ensures, by that best cleaning results for very special glasses.

### 3. Short middle brush with big head

Suitable for all stem glasses. They fit deeper in the canister because of a shorter middle brush and can be cleaned perfectly from the outside and inside. The large brush head (3861-Classic/1700372-NU) surrounds the broad belly of the glasses e.g. Craft Beer glasses completely.
